Please provide your comments below and complete the opposite side of this card. Thank you.

① Exhibits 4-7 are very confusing and not all together truthful. The noise level extends much further than the lines on Exhibits 4-7. Depending on wind conditions, the planes lands ^{West} East to East and takes off East to West. The jargon is confusing... 60 'CNEL' means what! ② I'm dissapointed that the report didn't look at the effects of air quality of residents. My breathing is much more impaired since living in Bixby Knolls.
